"However, we are also encouraged by the measures to conserve groundwater that TRGC has implemented and we encourage the TR entities to continue to seek out and implement water conservation measures for use at the golf course and throughout TR Ranch."

AND INSERT:

"While TRGC and the TR entities should be acknowledged for their efforts to conserve groundwater, the Commission remains concerned about the impacts associated with the annual use of more than 100,000,000 gallons of groundwater by TRGC. Since ICR's service area is located outside an Active Management Area, it is not subject to ADWR reporting and conservation requirements. Accordingly, ICR is not required to comply with conservation goals and management practices of the Arizona Department of Water Resources ("ADWR"). However, in light of the Commission's desire to conserve groundwater in Arizona, and the continued use of large quantities of groundwater on the TRGC, we believe it is reasonable to require ICR to implement within 120 days of the effective date of this Decision, at least ten Best Management Practices ("BMP") (as outlined in ADWR's Modified Non-Per Capita Conservation Program). Only one of these BMP's shall come from the "Public awareness/PR or Education and Training" categories of the BMP's."

Page 37, line 7.5, INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDERED that ICR Water Users Association shall implement within 120 days of the effective date of this Decision at least ten Best Management Practices (as outlined in ADWR's Modified Non-Per Capita Conservation Program) and submit those BMP's to Docket Control within 120 days of the effective date of this Decision. Only one of these BMP's shall come from the "Public awareness/PR or Education and Training" categories of the BMP's."

Make all conforming changes as necessary.
